

Domain Monitor Service - Be alerted when a domain's status changes

[Sign Up](#) or [Login](#)

What is Domain Monitor?

Domain Monitor is the internet's most robust, complete, and unmetered domain status monitoring tool. Monitor the daily status of any domain and receive daily email alerts when one or more of your domains changes its status.

Emails alerts are sent when ever a changes occurs on one of the domains you are monitoring. Supported TLDs are .com, .net, .org, .biz, .us, and .info.

What can I do with Domain Monitor?

Domain Status like "registrar-lock", "redeem-period", and "pending-delete" changes will be sent to you so you can take action when your favorite domains are about to be released.

Domain Registrar changes are a sign of domain transfers which are detected by Domain Monitor.

Expiration dates are monitored so you will know when a domain has been renewed.

Domain Name Servers changes also trigger an email alerts.

Pricing

Domain Monitor is completely free. We have always offered Domain Monitor to our members for free and will continue to do so.

Domain Monitor Interface
